

Social Long-Term Contracts

A theoretical Perspective

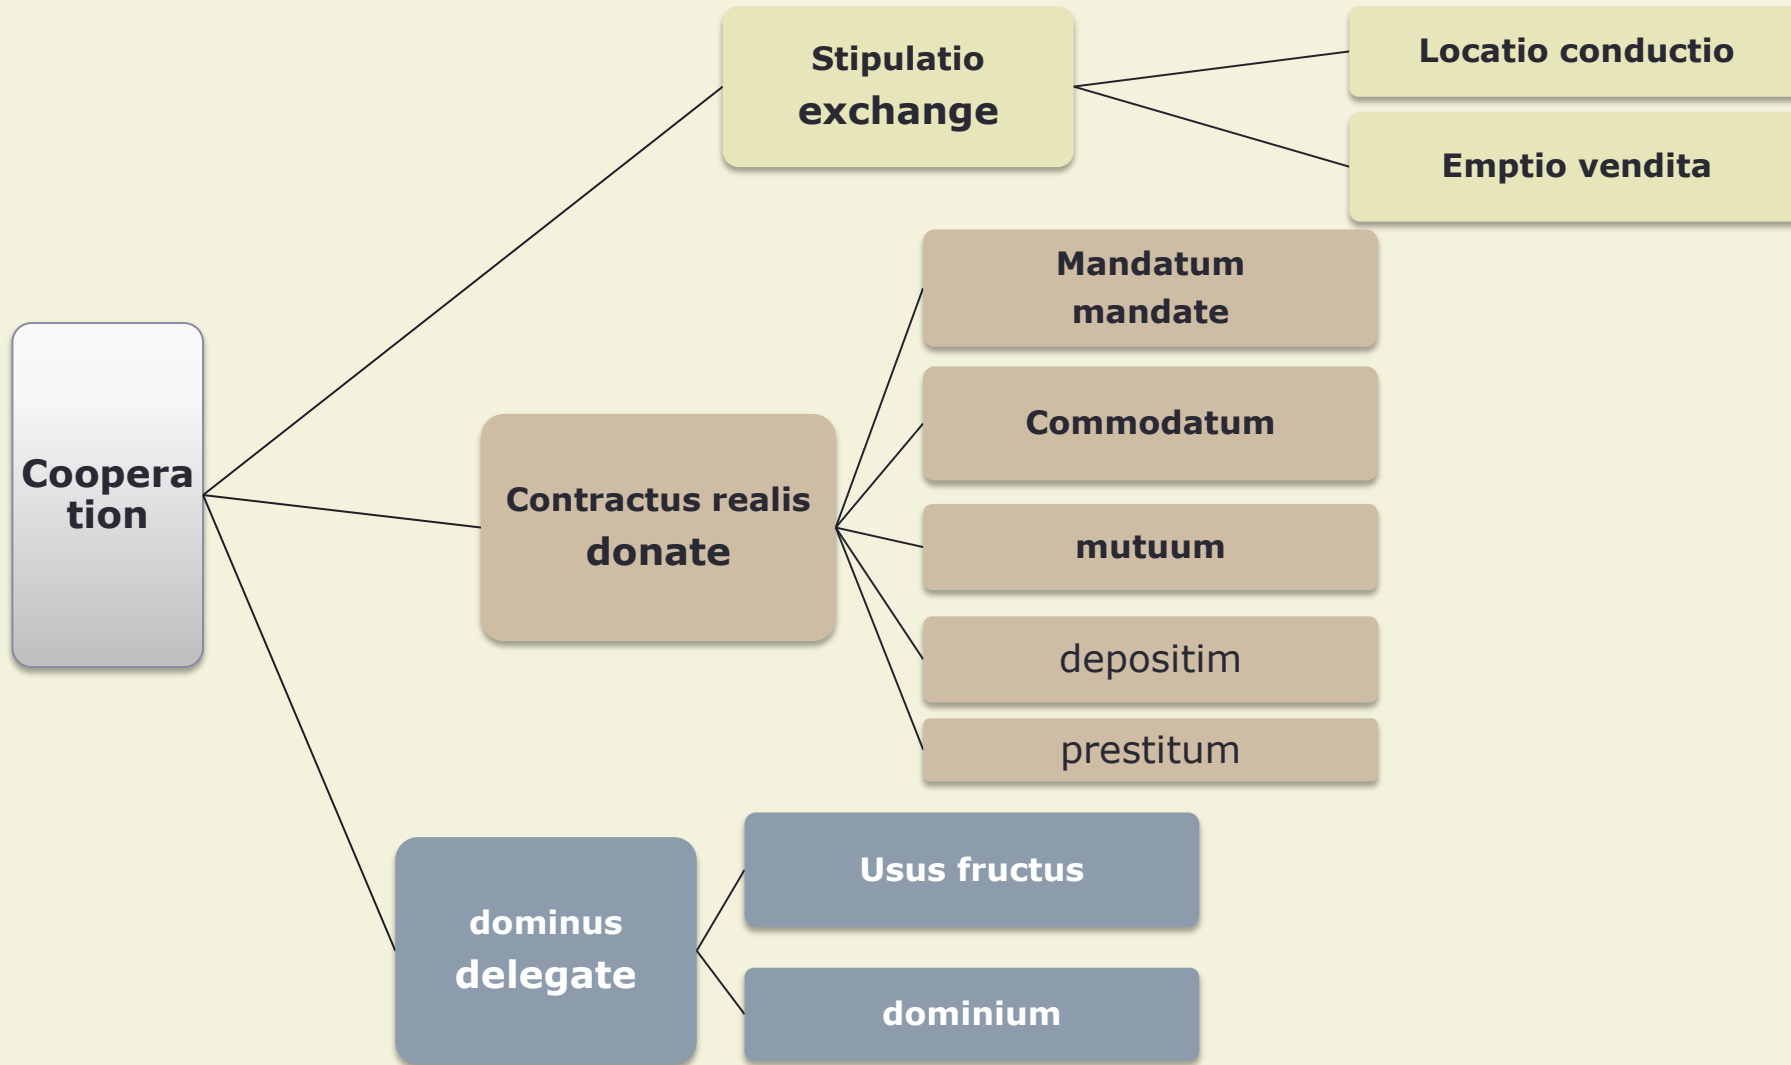

Third EuSoCo Meeting Hamburg May 15, 2011

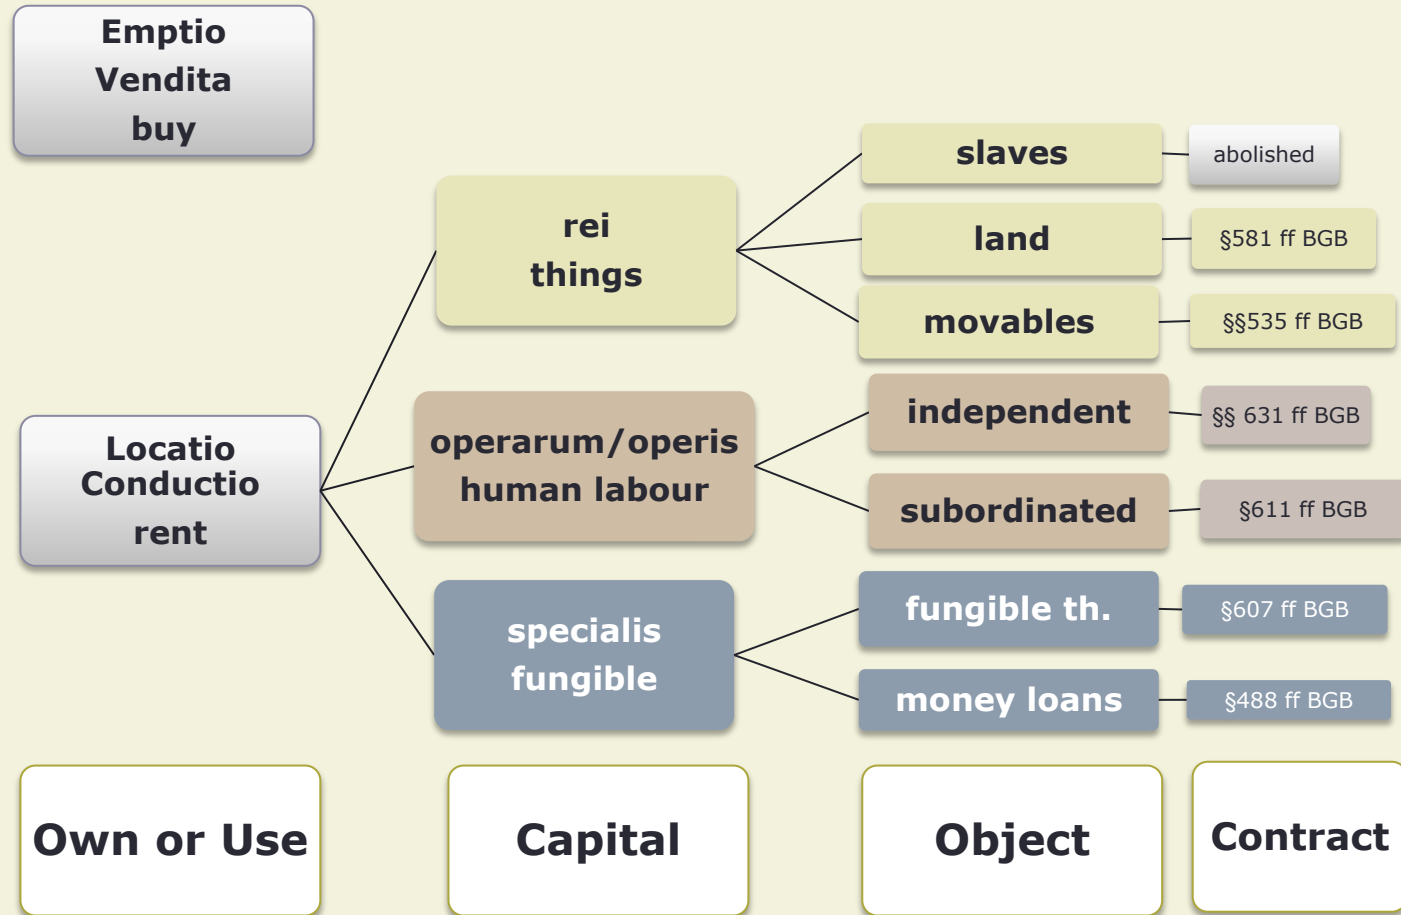

Prof. Udo Reifner, University of Hamburg

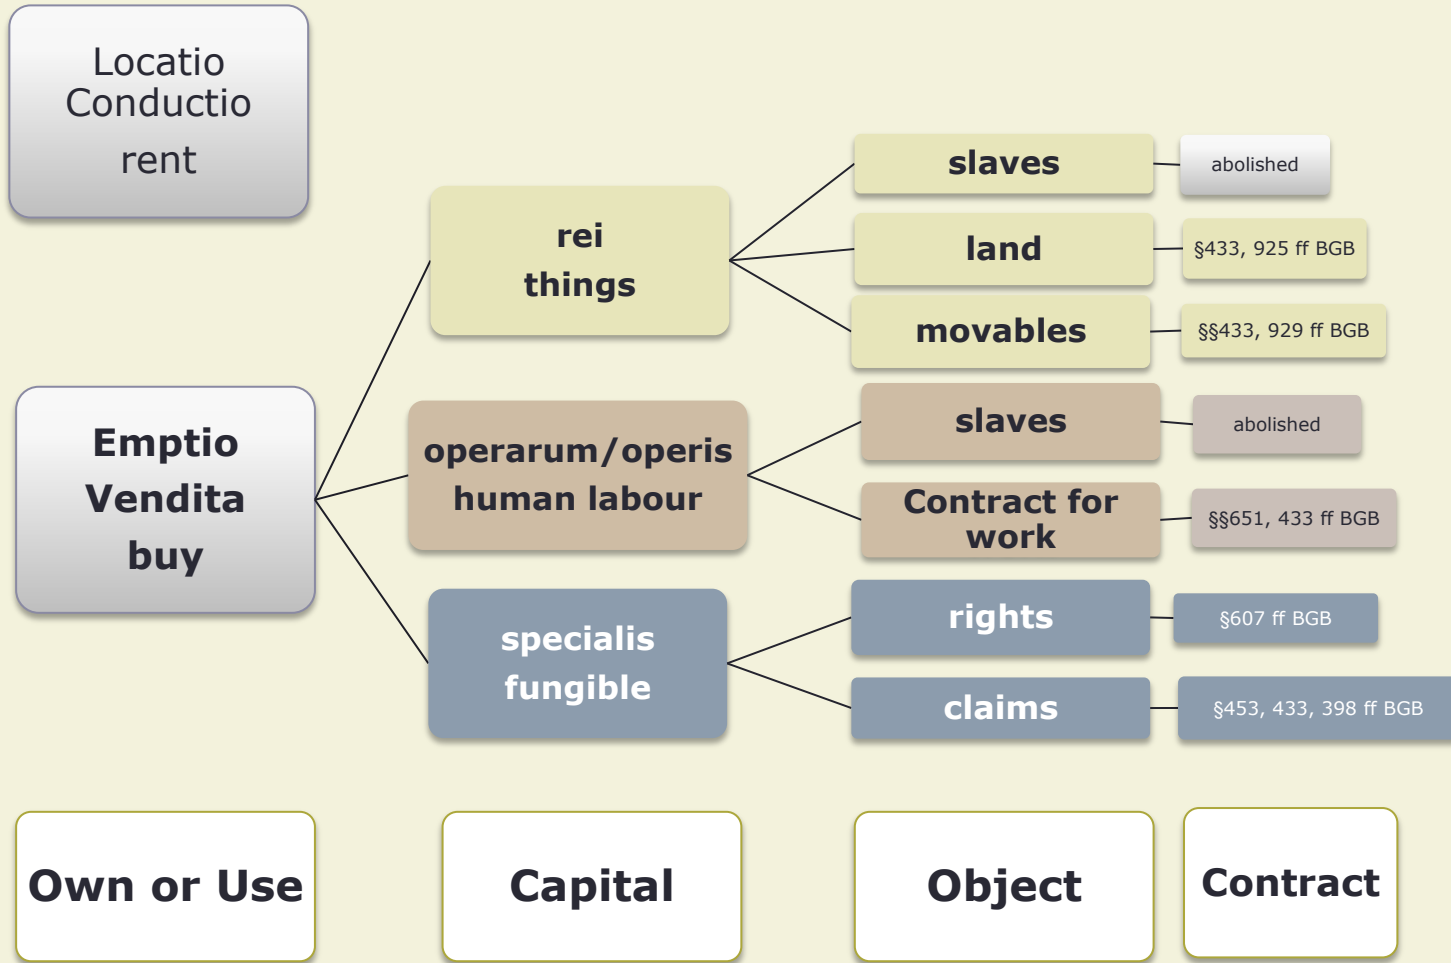

Critique of the Sales Law Model

- Longterm
 - Perpetual
 - Protection
 - Ethics
 - Necessity
 - Justice
 - Needs
 - Science
- Relations require permanent communication
diligence and good faith instead of vice and results
protection of needs is different from protection of opinions
profit as surplus has no ethical value ("sustainability")
choice requires access
capital gains profit by size, labour by effort
there is no need for money but needs that require money
rights have money values but money value are no rights

Co-operation in feudal and capitalist societies

Buy or Rent – where lies the future?

	Buy	Rent
Object	Things, land, claims, rights	Thing, land, claims, + labour
Have the	property	use
Pay for	Exchange value	Use value
Maintained by	consumer	Supplier
Use to	make money	Produce
For productive use	not responsible	Responsible
With regard to others	exclusive, antagonistic	Inclusive, cooperative
Imagines oneself as regards	alone, autistic	social, relational
	Results, spot	Process, time
